

DANIEL MAJIL

JUNIOR DEVELOPER

Motivated IT graduate with hands-on experience in web development, technical support, and data management. Familiar with PHP (Laravel), React, MySQL, and cloud technologies, with a strong willingness to learn and grow in software implementation and website management. Skilled in troubleshooting, version control (Git), and improving system efficiency. Passionate about technology and problem-solving.

SKILLS

- Programming Languages: Intermediate in Python, JavaScript, and C++; experience with PHP (Laravel).
- Web Development: Basic understanding of HTML, CSS, and front-end frameworks like React.
- Backend Development: Familiarity with Laravel (PHP) for building web applications and APIs.
- Database Management: Experience with MySQL; understanding of relational database design and optimization.
- Version Control: Working knowledge of Git for collaborative development (branches, merges, and pull requests).
- Cloud & Deployment: Exposure to Google Cloud services and containerization with Docker.
- Testing & Debugging: Writing and maintaining automated tests; troubleshooting and resolving technical issues.
- Graphics & Design: Experience with design tools (e.g., Adobe Illustrator, Photoshop, or Publisher).
- Problem-Solving: Ability to analyze and resolve coding issues efficiently.
- Teamwork & Communication: Experience working in a collaborative development environment.
